MODULAR DIGITAL COPIERS

MADE-TO-MEASURE DIGITAL SOLUTIONS

These new A3 black and white digital copiers offer advanced management of black and white copy and print jobs for small and medium enterprises.

MAIN CHARACTERISTICS

OPTIONAL NETWORK PRINTING AND FAX MODULES	HIGH PAPER CAPACITY
REDUCED WARM-UP TIME	BY-PASS FUNCTION FOR SPECIAL PAPER FORMATS
LARGE ADJUSTABLE TOUCH-SCREEN PANEL	AVAILABILITY OF TWO DIFFERENT FINISHING UNITS

PRODUCTIVITY

The Olivetti d-Copia 2500 and d-Copia 3000 are ideal for offices where copying is a vitally important function, which is why all the features that boost productivity and improve operating management have been enhanced. With **copy and print speeds** of 25 and 30 pages per minute, respectively, in A4 format (12.5 and 15 pages per minute, respectively, in A3 format) and a **warm-up time** of less than 15 seconds, the new models rank among the most productive devices in their class.

MODULARITY

Both systems support an optional **network printing module** and a **fax unit**, to transform the basic configuration into a multi-functional solution for all business needs. Options for the high-end configuration include **two additional 500-sheet paper trays**, for an impressive overall capacity of 2,200 cut sheets (through the by-pass), plus **two different finishers**; one, with a 500-sheet capacity, partly incorporated within the body of the machine, the other an external unit with double the capacity. Both finishers provide stapling of up to 30 sheets with one staple.

4 UNIVERSAL CASSETTES for a maximum paper capacity of 2,200 sheets

ADJUSTABLE TOUCH-SCREEN PANEL with intuitive menu

ERGONOMICS

With their ergonomic and compact design, the d-Copia 2500 and d-Copia 3000 put the focus firmly on maximum comfort and ease of use. The broad **touch-screen control panel** can be tilted through 35 degrees, enabling all operations to be executed in a simple, intuitive manner from either a standing or seated position.

Practical pressure handles make the paper trays easy to open.

SAVINGS

Technological innovation and superior performance have resulted in greater reliability and minimal waste. The **long-life consumables** guarantee a constant workflow keeping maintenance to a minimum. Both models feature a 300,000 page and a 20,000 page mono-component toner.
